Class limited to 20 participants.

Come learn how to shoot macro photography and capture tiny details. We will also show you how to use high speed flash (HSS or high speed sync) to capture details too fast to see with the naked eye.

Cost: \$65

Reservations Required.

Register at Silvio's or [www.eventbrite.com](http://www.eventbrite.com)

Kevin Gilligan is a landscape, portrait and sports photographer from L.A.'s South Bay. His visual perspective grew out of a love of the ocean, surfing and swimming.

His landscapes have been nationally published and museum displayed, his work has been in over a dozen group and solo exhibitions, and he is a member of the Hermosa Beach Artist's Collective.

While he loves to travel, Kevin's favorite place is right here in the South Bay where he often photographs long exposure photography of the ocean. You can view Kevin's work on his site: [www.photosbykag.com](http://www.photosbykag.com) and on social media @photosbykag.
